

UNL College of Architecture 2017 - 2018 Required Software: Help Sheet

Revit 2018, AutoCAD 2018, and 3ds Max 2018

For the 2017-2018 academic year, the College of Architecture will continue using the Autodesk Student Software Program, focusing on AutoCAD, Revit and 3ds Max. Every year student are encouraged to upgrade to the current version.

To obtain software, students are required to register with Autodesk at <http://students.autodesk.com/> using their student **@huskers.unl.edu** email address*. This email address can be created as soon as the student has been registered for classes.

* Student email addresses are available from the <http://huskers.unl.edu/> website.

Once registered with Autodesk, students will be able to download software installers directly from Autodesk. These installers vary in size from 2.5GB to 7.5GB in size. ***Students should plan to download and install the software before arriving for the fall semester.*** Along with the installer, Autodesk issues a user-specific serial number and product key to register and authenticate the software with Autodesk.

More information can be found on the Autodesk Student Download Instructions document listed on the Computer Policy web page.

Rhino 5

Student licenses for Rhino5 are available at the UNL Computer Shop located in the Lower Level of the Nebraska Union (402-472-5151). The educational version is identical to the commercial version, only sold at a discounted price. The license currently costs \$95. <http://sales.unl.edu/software>

**Download link: <http://www.rhino3d.com/download>

****Note: A license purchased from UNL computer Shop only contains the license code, not the CD media. Please use the download link above for the installer.**

Adobe Creative Cloud

The College of Architecture requires Adobe Creative Cloud for all programs. Adobe Creative Cloud is available for free to all enrolled UNL students. Follow the directions on the link below to sign up.
