

# Undergraduate GIS Student Assistant

**Department/Office:**

School of Natural Resources/CALMIT

**Rate of Pay:** ~\$10-12/hr, depending on GIS experience

**Working Hours:** 10 -20 hours/week, flexible

**Job Description:**

Photo interpretation of aerial imagery using GIS software for a Great Plains windbreak mapping project.

Responsibilities include:

- Photo interpretation using 1-meter NAIP imagery;
- Creating and editing features and attributes in GIS software;
- Managing raster and vector data

**Skills Required:**

- Experience with ESRI GIS software (ArcGIS 10 preferred);
- Knowledge of GIS data formats, organization, and management;
- Familiarity with 1-meter NAIP imagery preferred.

**Position Contact:**

**Milda Vaitkus, Center for Advanced Land Information Technologies**

If interested, please send a short resume that includes your GIS experience to [mvaitkus1@unl.edu](mailto:mvaitkus1@unl.edu).
