## **Jr Interior Designer Milwaukee, WI**

HGA is an award winning architectural, engineering, interior design and planning firm with a full-time opportunity in our Milwaukee office for a talented junior interior designer / interior architect with an interest in healthcare. In this position, you will collaborate with and be an integral part of the architectural and interior design team, supporting the development of the Interior Design efforts; performing all technical aspects of the interior design process from project setup through to construction administration; and assisting and participating in data gathering, planning and documentation.

Preferred candidates will have:

- Four year degree in Interior Design or related field from an accredited program
- 1 - 2 years of commercial interior design experience
- Fluent knowledge of Revit, Adobe Creative Suite, Microsoft Office and/or other related graphic software programs is expected
- Knowledge of 3D programs such as Revit and/or Sketch-up
- Experience with space planning and technical skills including 3D visualization, design detailing, and construction documentation

HGA is both team-oriented and employee-friendly and social activities are integrated into our office culture. We offer challenge, recognition and personal visibility with an opportunity to be part of some great projects.

### **ESSENTIAL DUTIES AND RESPONSIBILITIES:**

1. Works to create design solutions with enduring impact through original insight
2. Works with Architectural and Interior Design team to develop the interior design solutions for projects ranging from healthcare, workplace, higher education, and other community and commercial buildings.
3. Researches materials and develops concepts to advise and support design team on technical issues influencing interior design concept development.
4. Collaborates and communicates effectively and professionally with multidisciplinary team members.
5. Works within project schedules to prioritize tasks and coordinate the completion of documentation required from initial design phase through final project completion.
