

What's new at the AIAS?

As faculty and administrators, we wanted to let you know about some of the AIAS' key initiatives and programming coming up this spring.

AIAS Grassroots Leadership Conference

Throughout the 2018-2019 year, AIAS members and chapters have been encouraged to recognize and celebrate their individual paths to success. This year of “Success Seeking” and “Success Sharing” has demonstrated that despite the fact that “success” can take on a different meaning for everyone, AIAS is here to supplement students' education, showcase what they can achieve with their degree, help them determine their path, support those interests, bridge the gap between education and the profession, and ultimately, aid members into becoming the best versions of themselves.

Grassroots 2019 is an opportunity for AIAS members to get exposed to the training, resources, skills, network, and passion required to reach their full potential. Now it's time to **AMPLIFY** that momentum.

Interested in supporting your chapter leaders with attending AIAS Grassroots in Washington, DC?
Reach out to mailbox@aias.org.

Elevate Your Pitch 3.0

Back for its third year! Members pitch their business ideas to a panel of judges for a chance to win recognition and earn one of three cash prizes. Encourage your students to team up with other disciplines to craft a truly creative pitch. Sponsored by [Schindler Elevator Corp.](#)
