TEACHING

[0.65 Full Time Employment]

1. COURSES DELIVERED AND DEVELOPED

- a. Spring 2022 **LARC 311 | Studio IV: Ecological and Cultural Landscape Systems [5 cr.]**
Instructor of Record
Enrollment: 10 students
Course Description: Intermediate design studio. Landscape architecture design projects positioned in relation to ecological and cultural landscape systems. Design projects emerge from both research and critical speculation at both the site and regional scale.
Outcomes: In partnership with the U.S. Forest Service, this studio critically examined the ecological and cultural implications of the forest and how visitors can engage with its legacy through the design of an interpretive trail system. This studio emerged from a book collaboration with Dana Fritz, Professor of Art (Photography) at UNL; Katie Anania, Assistant Professor of Art History at UNL; Rebecca Buller, Assistant Professor of Practice in Geography at UNL, Rose-Marie Muzika, Director of Science at the Carnegie Museum of Natural History. The contributors formed a lecture series that introduced students to the diverse perspectives they brought to the book and supplemented their understanding of the interwoven narratives that define the forest's history. The project received a Student Award of Excellence in Analysis and Planning from the Nebraska Dakotas ASLA chapter in 2022.
- b. Fall 2021 **LARC 210 | Studio I: Landscape Architecture Design Foundations [5 cr.]**
Instructor of Record
Enrollment: 7 students
Course Description: Introductory design studio exploring design principles central to landscape architecture. Three interrelated aspects of design are pursued: 1) the elements of composition and their formal and spatial manipulation, 2) meanings conveyed by formal choices and transformations and 3) response to cultural and environmental forces in the landscape.
Outcomes: The final two projects were revised to include a community park design component in which students had the opportunity to speak to City Impact, a community center adjacent to Peter Pan Park, where the community needs established a vision for the students' final design project. Additionally, student work is being used to demonstrate park alternatives for a corporate partner, Spreetail, who is dedicating foundation funding to revitalize the park.
- c. Fall 2021 **CRPL 892 | Spatial Justice [3 cr.]**
Instructor of Record
Enrollment: 8 students
Course Description: This course offers an interdisciplinary perspective on urban studies, urban design and the roles that social, environmental, and ecological justice plays in designing a more just and equitable urbanity.
Outcomes: The pedagogic design of the course has been disseminated in a published book chapter, "Spatial Justice: Design Agency in the Production of Space." Additionally, the student work for the course has been compiled into the inaugural issue of Fishbowl Zine, which was released in the form of an exhibition in Architecture Hall.
- d. Spring 2020-2023 **LARC 231 | Site Systems II: Site Engineering [3 cr.]**
Instructor of Record
Enrollment: 5-10 students

Course Description: Investigation and application of landscape architectural design analysis, process and technology to aesthetic/functional landform manipulation, earthwork estimation, and stormwater management.

Outcomes: Revised curriculum with current LARE testing standards. Licensed Landscape architect Brandon Woodle and civil engineer Steven Thomas invited to present site engineering through the Willamette VA Cemetery and Toledo East Riverfront Metropark projects.

e. Spring 2020, 2021

DSGN 111 | Design Making [4 cr.]

Co-instructed with Nolan Golgert and Bud Shenefelt

Enrollment: 150-200 students

Course Description: Builds upon the skills acquired in Design Thinking by focusing on formal and spatial constructs. Integrates craft and compositional principles into the design process. Introduces multiple techniques for communicating ideas through physical and digital modeling, orthographic projection, freehand drawing, and other forms of graphic representation.

f. Fall 2020

DSGN 410 | Design Studio: Collaborate [5 cr.]

Instructor of Record

Enrollment: 15 students

<https://postgndstudio.com/>

Course Description: POST- STUDIO is a multidisciplinary collaborative studio between architects and landscape architects exploring the relationship between land, environmental justice, climate change, and design activism.

Outcomes: POST- Studio is a participant in the Landscape Architecture Foundation (LAF) Green New Deal Superstudio. Additionally, I hosted an inter-institutional workshop with Cruz Garcia and Nathalie Frankowski from Virginia Tech. Invited external jury included: Michael Johnson (LAF Board Member), Cruz Garcia and Nathalie Frankowski (Assistant Professor Virginia Tech), Monique Bassey (Landscape Designer, MIG San Francisco)

g. Fall 2019

ARCH 515 | Sustainable Systems [3 cr.]

Graduate Student Instructor

Associate Professor Jen Maigret

Enrollment: 210 students

Course Description: This course will introduce students aiming to participate in the built environment, to a range of perspectives comprised of theories, manifestoes, tropes, and exemplary practices that will assist in positioning new thinking and actions within complex terrestrial systems.

h. Fall 2013

LARC 230 | Site Systems I: Materiality [3 cr.]

Teaching Assistant

Emily Casper

Enrollment: 8 students

Course Description: Relationship between design and implementation through construction processes, detailing as an extension of design, landscape architectural materials, basic structural theory, detailing and structures, and technical specifications as a means of ensuring design intent.

2024 - 2026 Advisory Group Member. Creating Land-Based Commemorations. Mellon Foundation: Monuments Project Grant.

2022 - 2022 Member. Landscape and Regional Food Systems Search Committee. Assistant Professor of Practice.

b. College of Architecture Committees

2024 Member. Landscape Architecture Search Committee. Program Director.

2021 - 2022 Member. Community and Regional Planning Search Committee. Assistant Professor.

2021 - 2022 Member. D.One Search Committee. Assistant Professor of Practice.

2020 - 2023 Member. Facilities and Resources Committee.

2020 - 2023 Member. D.One Committee.

c. Program Service Roles

2023 - Current Professional Program Committee

2022 - Current Faculty Sponsor. Student American Society of Landscape Architecture (ASLA).

2. EXTRAMURAL COMMITTEES AND INITIATIVES

2024 Abstract and Full Paper Reviewer: Journal of Digital Landscape Architecture (JoDLA)

2023 Paper Reviewer. Landscape Research Record (LRR)

2021 Organizer. Design as Protest (DAP)

2021 Abstract Reviewer. Council of Educators in Landscape Architecture (CELA)

2019 Founder & Coordinator. Matters of Urban Design Student Association (MUDSA)

3. ENGAGEMENT INITIATIVES

a. 100 Ways to Fight Climate Change in Lincoln, Workshop (2023)

Professor Lindquist advised student ASLA in the development of the collaborative workshop between UNL American Society of Landscape Architecture (ASLA) Hyde Lecture Speaker, Martha Schwartz. About 35 students participated in the workshop where they sketched proposals on climate adaptation and mitigation strategies in response to eight key themes: Housing/Land Use, Waste/Energy, Mobility, Biodiversity, Food/Water, and Economy.

b. Lincoln Northeast High School Learning Garden (2023)

The Food, Energy, Water, and Societal Systems FEWS² Program engages with local Lincoln high schools to illuminate pathways to various STEM professions. Professor Lindquist coordinated between the UNL ASLA chapter to develop a volunteer program to design and develop plans for a community garden at Lincoln Northeast High School. This program is funded by a \$5,000 grant by Civic Nebraska to fund the development of the garden as an educational asset for the school.

c. SEED Box: Recruitment and Outreach Strategy (2021)

The SEED BOX is a learning package that engages k-12 students about the various qualities a Landscape Architect must have in order to make great places. Space, environment, and ecology and the organization of these components are encouraged by providing a sandbox for students to build their own park.

d. **L.REP: Assessment of Landscape Representational Curriculum and Pedagogy (2020)**

The L.REP Initiative emerged from conversations regarding the state of landscape drawing and representation curriculum in the program. The initiative examined analog and digital drawing curricula from Universities across the United States. As part of the initiative, a survey was distributed to the student body.

4. PROFESSIONAL DEVELOPMENT

2022	Reflective Practitioners Program (RPP) <i>Bronze Member</i>
2022	Diversity, Equity, and Inclusion Workshop <i>New Faculty Development Program (NFDP)</i>
2021	“Uneven Development: Nature, Capital, and the Production of Space.” <i>Inter-institutional reading group.</i>
