

**Architect / Architecture Team Lead (Design-Build)  
Marysville, Kansas | On-Site**

CES Group is a multidisciplinary engineering, architecture, and survey firm building an integrated Planning-Design-Build platform serving rural Kansas communities. Based in Marysville, Kansas, CES is engaged in housing, civic, masterplanning, and community redevelopment initiatives.

We seek a motivated Architect to help grow our Architecture discipline. The ideal candidate is proficient in Revit and visualization software, experienced in construction documentation, and comfortable collaborating in a design-build environment.

Responsibilities include masterplanning, community design, architectural design development, construction documentation, client collaboration, and participation through construction.

This foundational role offers leadership opportunity, meaningful community impact, and long-term growth.
